

Fiber Optic Distribution Wall Box ODF-XL Q-Fiber

Description

Fiber Optic Distribution Wall Box ODF-XL Q-Fiber is composed of a box and a panel. Wall-mounting ODF-XL are used to terminate and distribute optical fiber cables; they are convenient equipment to organize and connect fiber optic links. The door and panel are hinged with locks. ODF is two-sectional, which enables separation of the cables and switches. The embossments on the bootom of the box make it possible to organise cables and fibre-optic pigtails in an easy, functional and aesthetic way.

Application

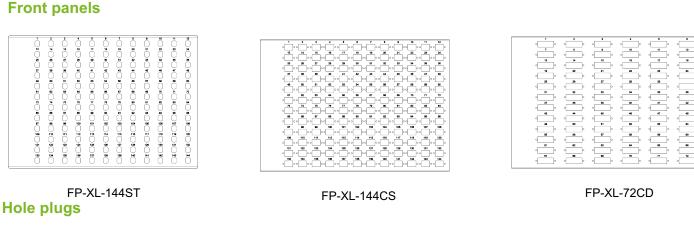

Telecommunication, CATV, Monitoring, Industry, LAN, MAN.
