

# Suspension SS 1025

## Description

**Suspension clamp SS 1025** is used for the suspension of ADSS cables and figure-8 cables. The flexible material used in the manufacture of the SS 1025 has a long lifespan and adapts very well to win-induced vibrations.

## Application

Overhead data communication lines.

## Properties

Symbol	Range of diameter [mm]	Minimum breaking load [daN]	Weight [kg]	Belt (1)	Ring (2)	Shackle (3)
SS 1025 B	8 - 18	300	0,10	Polyester	Stainless stell	Stainless stell
SS 1025 BELGE	8 - 18	300	0,15	Polyester	Stainless stell	Stainless stell
